ISTRUZIONI DI MONTAGGIO DEI RACCORDI CON FASCETTA
SUL TUBO FLESSIBILE GHIBLI / FRIGOSTAR / ARTIK NK

- 1) Verificare la compatibilità dei componenti (Fig. 1)
Es. SIZE 10
 ϕ interno tubo ϕ 12,7
 ϕ esterno tubo ϕ 21,5
marcatura barretta -10
 ϕ estremità d'innesto D ϕ 12
- 2) Tagliare l'estremità del tubo perpendicolarmente usando al taglierina manuale. (Fig. 2)
- 3) Introdurre la fascetta sul tubo flessibile in modo che il dente della barretta A vada in appoggio sull'estremità del tubo tagliato. (Fig. 3-4)
- 4) Lubrificare l'estremità d'innesto del raccordo B con il medesimo olio utilizzato nell'impianto ed inserirlo completamente nel tubo. (Fig. 4)
- 5) Per il montaggio posizionare il becco arrotondato della pinza (C) all'estremità della fascetta con forma a gancio e il becco sottile (D) all'estremità con il dente d'aggancio. Serrare le fascette 1-2 fino allo scatto usando l'apposita pinza "CLIC" apri-chiudi cod. CO 205 (Fig. 5-6)
- 6) Per lo smontaggio invertire la posizione dei becchi della pinza sulla fascetta; stringendo la fascetta si sblocca (Fig. 7).

PATENTED

ASSEMBLING INSTRUCTIONS FOR FITTINGS WITH CLAMPS
GHIBLI FLEXIBLE HOSE

- 1) Check compatibility of components (Ill. 1)
Ex. SIZE 10
 ϕ hose inside ϕ 12,7
 ϕ hose outside ϕ 21,5
marcatura barretta -10
D' connection tip ϕ 12
- 2) Cut hose tip straight with manual cutter. (Ill. 2)
- 3) Put clamp on flexible hose so that the hook of the clings to the cut hose tip. (Ill. 3-4)
- 4) Lubricate fitting B with the same oil used in the system and fit it to the hose all the way. (Ill. 4)
- 5) Assembling place the round side C of the pliers on the lock of the clamp and the sharp side (D) on the hook. Tighten clamps 1-2 until they click with 'click' pliers it. CO205. (Ill. 5-6)
- 6) Disassembling turn the pliers the opposite way and tighten the clamp to release it. (Ill. 7)

BREVETÉ

INSTRUCTIONS POUR LE MONTAGE DES RACCORDS AVEC COLLIERS SUR TUBE FLEXIBLE FRIGOSTAR/REFRIMASTER

- 1) Vérifier la compatibilité des pièces (Fig. 1)
Ex. SIZE 10
 ϕ interne tube ϕ 12,7
 ϕ externe tube ϕ 21,5
marquage barrette -10
 ϕ extrémité 'D' enclenchement ϕ 12
- 2) Couper l'extrémité du tube perpendiculairement en utilisant la coupeuse manuelle. (Fig. 2)
- 3) Introduire le collier sur le flexible de manière à ce que la dent de la barrette s'appuie sur l'extrémité du tube coupé. (Fig. 3-4)
- 4) Lubrifier l'extrémité d'enclenchement du raccordo B avec la même huile utilisée dans le circuit et l'introduire totalement dans le tube. (Fig. 4)
- 5) Pour le montage, positionner le bec arrondi de la pince (C) à l'extrémité du collier en forme de crochet, et le bec fin (D) à l'extrémité avec le cran d'enclenchement. Serrer les colliers 1-2 jusqu'au dé clic grâce à la pince "CLIC" cod. CO205. (Fig. 5-6)
- 6) Pour le démontage, inverser la position des bords de la pince sur le collier; en serrant, le collier se débloque; (Fig. 7)

PATENTADO

MONTAJE DE LOS RACORES CON ABRAZADERA EN LA TUBERÍA FLEXIBLE FRIGOSTAR/REFRIMASTER

- 1) Controlar la compatibilidad de los componentes (Fig. 1)
Ej. GALGA 10
 ϕ interno tubería
 ϕ externo tubería ϕ 21,5
marcación varilla -10
 ϕ extremidad empalme D ϕ 12
- 2) Cortar la extremidad de la manguera perpendicolarmente usando la cuchilla manual (Fig. 2)
- 3) Introducir la abrazadera en la manguera flexible de modo que el diente de la varilla (A) llegue en apoyo sobre la extremidad del mismo. (Fig. 3-4)

- 4) Lubrificar la extremidad de empalme del racor B con el mismo aceite utilizado en el equipo A/C. Luego introducirlo completamente en la manguera. (Fig. 4)
- 5) Para el montaje posicionar la punta de la pinza (C) en la extremidad de la abrazadera con la forma de gancho y la punta delgada (D) a la extremidad con el diente de conexión
- 6) Para lo desmontar invertir la posición de las puntas de la pinza sobre la abrazadera; apretar hasta abrir (Fig. 7).

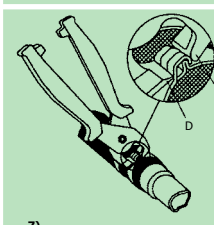

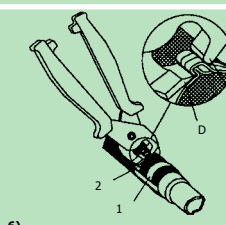

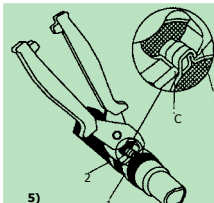

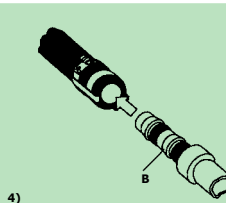

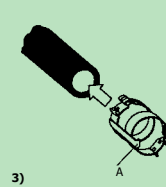

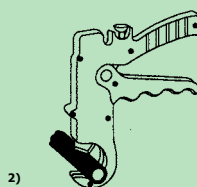

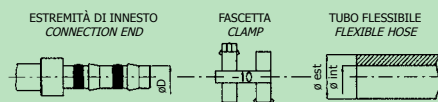

PATENTED

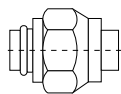

BAUANLEITUNG FÜR FITTINGE MIT KLEMME AUF DEM SCHLAUCH GHIBLI / FRIGOSTAR / ARTIK NK

AUFBAUEINLEITUNGEN FÜR WIEDERVERWENDBARE FITTINGE

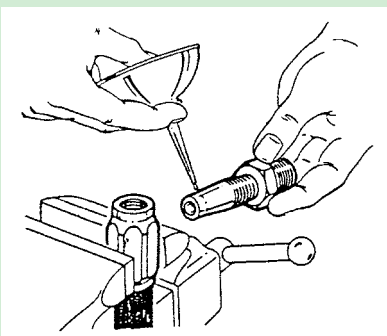

1. tagliare il tubo con un seghetto ben affilato o con apposita tagliatrice. Pulire accuratamente il tubo da eventuali residui del taglio. Avvitare il tubo nella boccola in senso antiorario fino a farlo toccare sul fondo della boccola stessa; quindi svitarlo di 1/4 di giro.

1. use a sharp saw or proper cutter to cut the hose. Carefully remove any cutting residue from hose. Screw the hose counter-clockwise into the socket until it reaches the bottom, then unscrew it by 1/4 turn.

1. Couper le tube avec une scie ou avec le coupe tube adapté. Nettoyer soigneusement le tube d'éventuels résidus. Visser le tube dans la jupe, dans le sens contraire des aiguilles d'une montre, jusqu'à rejoindre le fond de la jupe. Puis dévisser d'1/4 de tour.

1. En el caso no se poséa la herramienta cod.4017086 (ver pag.15.13) proceder como sigue: cortar la manguera con una sierra para metales bien afilada. Limpiar la manguera de posibles residuos del corte. Atornillar la manguera en el casquillo girando en sentido inverso del reloj hasta tocar el fondo. Luego destornillar de 1/4 de giro

1. Den Schlauch Sie mit einem schärfen Säge oder mit einer geeigneter Schneidemaschine schneiden.
Den Schlauch aus alle Rückstände des Schnittes reinigen.
Den Schlauch in die Hülse entgegen dem Uhrzeigersinn verschrauben, bis er auf der Unterseite der Hülse drückt; dann es mit 1/4 Umdrehung herausdrehen.

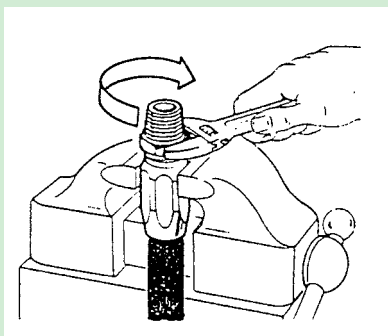

2. lubrificare la filettatura e il cono d'invito del raccordo con il medesimo olio usato nell'impianto.

2. lubricate the threading and the taper of the fitting with the same oil used in the system.

2. Lubrifier le filetage et le cône du raccord avec la même huile utilisée dans le circuit.

2. Lubrificar el racor macho con el mismo aceite utilizado en el equipo sobre el cual se está trabajando.

2. Das Gewinde und den Konus des Fittings mit dem gleichen Öl schmieren, das in der Anlage verwendet wird.

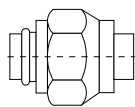

3. inserire il cono d'invito nel tubo, esercitare una certa pressione a mano e imboccare i primi filetti della boccola ruotando in senso orario; infine completare l'avvitamento aiutandosi con chiave opportuna e lasciando un gioco tra esagono e boccola di circa 1-1,5 mm.

3. insert the taper into the hose, pressing slightly with your hand, and engage the first threads of the socket by turning clockwise. Complete the screwing using the appropriate wrench, leaving a gap of approximately 1-1.5 mm between the hexagonal nut and the socket.

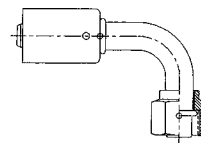

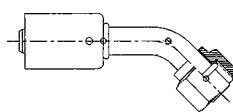

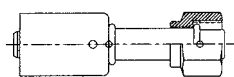

3. Introduire le cône dans le tube, exercer une certaine pression avec la main et emboîter les premier filets de la jupe en tournant dans le sens des aiguilles d'une montre. Enfin, compléter le vissage en s'aidant de clés et en laissant un espace d'environ 1-1,5mm entre l'hexagone et la jupe.

3. Introducir el racor macho haciendo presión manualmente, y atornillar las primeras crestas de la rosca en el casquillo girando en sentido del reloj: Seguir luego con la ayuda de una adecuada llave. Dejar una tolerancia de 1-1,5 mm entre-el casquillo y el racor macho.

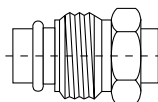

3. Den Konus in den Schlauch mit einem Handdruck einsetzen und die ersten Gewinden der Hülse rechtsdrehend mit Hilfe eines entsprechenden Schlüssels drehen, so dass eine Lücke etwa 1 - 1.5 mm zwischen Büchse steht.
